Did you know?

The ligne is a historic unit of length originally used in France, and retained by watchmakers to this day.

One ligne = 2.256mm or .0888 inches.

Accuracy Guarantee

Cas-Ker movements are warranted to be running accurately when you receive them.

Return immediately if any do not meet your satisfaction.

MOVEMENT OVERALL HEIGHT

=====

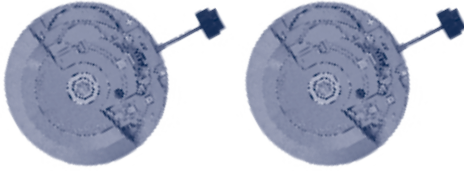

The overall height of a watch movement is measured from the bottom of the movement to the top of the center post or cannon pinion.
